PRESS RELEASE

OFFICIAL LAUNCH OF VASATEC - a global member network of shading fabricators, shading contractors, and integrators all using Vestamatic + CRE technology.

We are pleased to announce the official launch of Vasatec - Vestamatic **Architectural Shading Automation Technology**, a network of leading international companies unified in providing technologically advanced shading solutions.

The unified network enables a consistent and planned approach in developing and implementing contract shading solutions from start to finish. This provides architects, designers and building developers the expertise when it comes to delivery and implementation of sun shading solutions, with ongoing support and maintenance.

Each project is individually assessed and designed by experts to meet a building and occupants shading needs, with the added benefit of cost-effective yet advanced shading automation technology.

Working with Vasatec provides access to advanced shading, such as:

- IOT Technology applied in best-in class solutions for interior and exterior shading.
- Innovative wiring and connection technologies to reduce installation risk.
- Standardized and customized shading automation solutions applied.
- Highly flexible automation solutions that can adapt to changing space demands.
- A proven collaboration of shade manufacturer, installer and automation technology.
